Maximum Marks	4 Marks

CUSTOMER JOURNEY MAP: Human Development Index (HDI) Predictor

Date: 25 June 2026 |
 Team ID: _____ |
 Project Name: Human Development Index (HDI) Predictor |
 Maximum Marks: 4 Marks

Phase	ENTICE	ENTER	ENGAGE	EXIT	EXTEND
Step	Discover HDI Predictor Platform	Enter Country Development Indicators	Generate HDI Prediction	View HDI Result & Category	Analyze & Compare Development
Interactions	- Project Website - Research Portal - Educational Platform - Awareness through reports and articles	- Country Selection (optional) - Life Expectancy (years) - Mean Years of Schooling - Expected Years of Schooling - GNI per Capita (PPP USD) - Input Validation	- Flask Web Application - Machine Learning Model (Linear Regression) - HDI Prediction Engine - Database & Preprocessed Dataset	- HDI Score Display - HDI Category (Very High / High / Medium / Low) - Prediction Summary - Visualizations (Charts)	- Compare Multiple Countries - View Historical Data (if available) - Download/Export Report - Use Insights for Policy / Research - Future HDI Forecasting (Future)
Goals & Motivations	- Understand a country's development level. - Learn how HDI is calculated.	- Provide accurate socio-economic data. - Complete the prediction quickly and easily.	- Receive an accurate HDI score. - Understand the country's development category.	- Interpret prediction results. - Identify strengths and weaknesses.	- Compare multiple countries. - Support research and policy planning.
Positive Moments	- Easy access to the platform. - Clear information about HDI.	- Simple and user-friendly input forms. - Quick data entry.	- Fast HDI prediction. - Accurate machine learning results.	- Clear HDI score and category. - Easy-to-understand output with charts.	- Better development insights. - Useful comparison reports.
Negative Moments	- Limited understanding of HDI concepts. - Not aware of the indicators.	- Incorrect or missing input values. - Confusing economic indicators.	- Users may not understand how predictions are generated. - Model accuracy concerns.	- Need more explanation of HDI categories. - Hard to interpret some technical terms.	- Limited historical comparison data. - No future forecasting (current version).
Areas of Opportunity	- Add HDI educational resources. - Explain HDI calculation methodology.	- Add input validation. - Provide tooltips and sample values. - Auto-fill / suggestions.	- Show feature importance. - Display prediction confidence. - Explain model performance.	- Show improvement recommendations. - Visualize indicators with interactive charts.	- Add country comparison dashboard. - Historical trend analysis. - Future HDI forecasting using AI.

JOURNEY FLOW

CUSTOMER PERSONA

Primary User: Policy Maker / Researcher

Goals: Make data-driven decisions, compare countries, identify development gaps, support policy planning.

Needs: Accurate predictions, easy-to-use platform, clear visualizations, reliable insights.

Expected Outcome: Obtain HDI score and category, understand key factors, and use insights for research and development planning.
